## General Assembly Works Through Pandemic; Workers Score Big Wins

### 2020

In 2020, due to the health and safety issue brought on by the COVID-19 pandemic, the spring session was limited. Although most of the legislative session was canceled, workers scored big legislative wins.

The Illinois AFL-CIO passed critical legislation that provided workers greater access to critical resources. In the 2020 abbreviated special session, the Illinois AFL-CIO tracked and supported five bills, including the Fair Tax Resolution, that provided both economic and health-related support to Illinois workers' and voters.

### *Unemployment Insurance Expansion*

In 2020, as the economy lurched to a crawl, the COVID-19 pandemic left many workers unemployed. The Illinois AFL-CIO and its union affiliates ensured that Illinois accessed federal unemployment relief with the passage of HB 2455, the Unemployment Expansion Bill.

The Unemployment Expansion Bill provided huge relief for workers experiencing unemployment during the first half of the pandemic. The bill provided over \$2B in additional federal funding to the state's unemployment program. The bill also extended unemployment benefits for an additional seven weeks to give worker more time to find employment. The bill also provided unemployment benefits for new categories of workers who were previously excluded from receiving unemployment aid. Finally, to help the economy recover, employers were not charged for COVID-19 related unemployment insurance experiences.

### *Workers' Compensation Expansion*

Frontline workers have played a critical role during the pandemic. Many of our members have been on the frontlines saving lives and keeping our economy afloat. Unfortunately, many of these workers have been without the necessary personal protective equipment and adequate safety measures.

The Illinois AFL-CIO and its union affiliates have been advocating for worker protection since

the start of the pandemic. In April 2020, with the support of Governor JB Pritzker, the Illinois Workers' Compensation Commission approved an emergency rule that expanded workers' compensation coverage for essential workers who contract COVID-19 and created a rebuttable presumption that their injury, disease, or period of incapacity was connected to their employment. When that ruling was repealed, Illinois AFL-CIO and its union affiliates headed to the legislature to ensure that essential workers had the necessary coverage. In the 2020 abbreviated special session, HB 2455 was enacted to create a rebuttable presumption that essential workers who contract COVID-19 did so because of their employment.

### *Vote by Mail Expansion*

In 2020, the COVID-19 pandemic posed huge health and safety risk to voters and jeopardized voter participation. In a historic move, SB 1863 was enacted to expand the Vote by Mail Option in the 2020 General Election and ensured a fair and safe election. Specially, SB 1863 allowed for curbside voting, declared the General Election Day a state holiday, and required election authorities to proactively mail and post Vote by Mail applications to voters. SB 1863 led to huge victories nationally and locally in the 2020 General Election.

## 2021

In 2021, the General Assembly passed a record numbers of bills to compensate for the abbreviated session in 2020. The General Assembly also passed historic legislation that will completely transform the lives of workers in our state.

### *The Climate Equitable Jobs Act*

After intense negotiations, the General Assembly passed SB 2408, the Climate Equitable Jobs Act. Following the May adjournment, the General Assembly met several times during the summer to continue negotiations. The Illinois AFL-CIO and its affiliates fought hard for the passage of the most pro-worker, pro-climate energy bill in our country. Our union coalition was committed to saving the existing nuclear fleet and including adequate labor protections in the new clean energy economy. Specifically, the bill includes:

- 50% renewable energy by 2040 and zero carbon emissions by 2045;
- All privately owned coal generation closed by 2030; municipally-owned coal plants to reach zero carbon emissions by 2045;
- \$700 million in negotiated subsidies for the Byron, Dresden, Braidwood nuclear plants for 5 years to sustain Illinois' primary source of current clean energy;
- Expanded apprenticeship and training programs to increase representation of Black and Latinx communities in the energy workforce, with required diversity hiring reports by renewable industry employers;

- Strongest labor standards in the country on wind and solar developments
- Project labor agreements required on all utility-scale wind and solar projects and prevailing wages for all non-residential clean energy projects;
- “Just transition” program for areas economically reliant on fossil fuel generation;
- 1 million electric vehicles on the road by 2030, with state rebates funding up to 80% of charging station installation and requires prevailing wages on installation;
- Increased energy efficiency for public schools; and
- Increased accountability and transparency — return to traditional ratemaking vs. formula rates and requires utilities to establish a chief ethics and compliance officer who must report to the Illinois Commerce Commission.

### *Chicago Elected School Board*

In a historic move, the General passed HB 2908 creating a fully elected school board in Chicago by 2027. For years, teachers, families, and students have advocated for a democratic process in the selection of Chicago Public School Board Members. With the passage of HB 2908, Chicago will finally have a school board that is fully accountable to the people in the city.

## **Making History: Workers' Rights On Ballot in 2020**

Illinois has a chance to make history and protect collective bargaining rights in the November 2022 election.

With bipartisan majorities, the Illinois General Assembly voted to put the Workers' Rights Amendment on the ballot this year for voter approval. The constitutional amendment protects organizing and collective bargaining rights and stops politicians from intervening in the agreements reached by workers and their employers.

“We've seen workers rights eroded all around us in the Midwest and we thought it was time to make a stand,” said Illinois AFL-CIO President Tim Drea. “During the pandemic, working families have been carrying the economy and putting their lives and well-being on the line. This amendment protects their ability to have a voice at work.”

Strong economies are built from the middle out, not the top down.

According to an Economic Policy Institute study, supporting workers' right to organize and collectively bargain grow jobs and deliver economic growth most effectively. Now is the time for Illinois to make this commitment to our workers and become the first state to enshrine these rights into our constitution.

Building a stronger, more vibrant middle class will provide all workers with a more direct path to economic opportunities, and our state will be even stronger and more competitive. Passage of the Workers' Rights Amendment will protect Illinois workers from political attacks, and it will benefit working families, businesses, and the state's economy.

## Voting Record: Key Tool for Political Accountability

The Illinois AFL-CIO Voting Record is the official voting record of Illinois legislators on issues of importance to working families and their unions during 2020-21. The Voting Record is compiled on behalf of the Illinois AFL-CIO Executive Board.

The goal of the Labor Political Program is to educate and mobilize union households and working families to elect allies at all levels of government in order to preserve, protect and advance the cause of working people.

Union leaders, rank-and-file members and labor lobbyists seek to advance economic and social justice through laws, orders, policies, and appointments accomplished through government action.

The Illinois AFL-CIO Voting Record, published every other year, is a key tool in holding politicians accountable.

Union members spend many days, nights, and weekends helping elect candidates to public office. It is critical that we hold them accountable for their actions. Endorsements from the Illinois AFL-CIO are earned by supporting issues important to working people – as illustrated in this document. Legislators are given a score based on the level of support for that year and over the course of their term in the General Assembly or Congress.

Since 2012, the Labor Political Program has had more than 750,000 conversations with union members and more than 30,000 volunteer shifts have been covered by union members and their families.

Currently, the Illinois Senate has 41 Democrats and 18 Republicans. In the Illinois House, the Democrats also hold a veto-proof supermajority with 73 members, while the Republicans have 45. Democrats Dick Durbin and Tammy Duckworth are the U.S. Senators representing Illinois. The congressional delegation is made up of 13 Democrats and five Republicans.

We wish to extend our appreciation to all incumbent lawmakers who supported working families. In making recommendations for endorsement, the legislator's overall record, including previous legislative sessions, committee votes and positions on issues may be considered.

**R** = Right / **W** = Wrong / **NV** = No Vote

**INC** = Incomplete / **E** = Excused

Lifetime = accumulated votes cast in General Assembly

Year = percentage of labor support for specific year
