Re: UAW Health and Safety Institute – May 24-28, 2021

Greetings:

The 2021 UAW Health and Safety Institute Virtual Training Conference will be held the week of May 24-28, 2021. This conference will provide significant education and training opportunities beneficial to Health & Safety Representatives, Health & Safety Committee members and local union representatives that have Industrial Hygiene, Ergonomics, Covid-19 safe work practices, as well as other health and safety responsibilities.

This year's curriculum will be comprised of various current health and safety related topics that can be delivered effectively via an on-line format. Some of the courses that will be offered this year will include training on Covid-19 mitigation, Vaccinations, Aerosols, Opioid use/misuse, Resiliency, workplace preparedness and more. A variety of plenary sessions related to current safety and health topics will feature guest speakers with advanced knowledge of critical topics. A complete list of classes will be made available when the registration site opens on April 14, 2021.

Delivering updated and effective health and safety training during this unprecedented pandemic is very important to our Union leadership, our local representatives and most importantly our membership as we all work to provide the safest possible environment in our represented workplaces across the country. We thank you for your commitment to health and safety and look forward to your participation in this year's virtual conference.
