Return to Home Plant Request/Return to Former Labor Market Request

I am just giving everyone a heads up, I will be requesting a new Return to Home Plant list and Return to Former Labor Market list from the corporation. I will put my request in on November 3rd. Anyone that submits their request to return after that date will not show on the updated lists that I receive and send out to the membership.

I am not requesting a new list due to trying to fill any openings. I am only requesting the updated list to show everyone what our current status is for members wanting to return.

If/when there comes a time that you need to be on the list. I will send out an email to everyone that's on my contact list, letting you know to get signed up or risk getting skipped for the openings that the company is trying to fill. **Again, we are not in that situation.**

The members that kept Belvidere as their home plant can submit their request on Employee Central. The members that didn't keep Belvidere as their home plant can submit their return to former labor market request on the HUB.

I don't have access to the option you took when transferring. If you don't remember, you'll need to contact your Reps at the facility you are working at or the HR department there, so you know which request you should be submitting.
