

## Recall lists-

I will be requesting a new list of return to home plant requests and return to former labor market requests on March 30th. Once I get those lists, I will get them sent out to everyone. If you'd like to see that you are on the list and haven't signed up yet, please do so before March 30th. If you've already signed up, your name should still be on the list.

- Return to home plant list- covers members that transferred to another location and kept Belvidere as their home plant. Also, the members that took work opportunities with Naperville PDC or the Belvidere PDC.
- Return to former labor market list- covers the members that didn't keep Belvidere as their home plant.
- If you stayed in Belvidere on layoff and didn't transfer anywhere, there's nothing you need to do. You will already show on the plant's layoff list.
- The deadline of March 30th is mine, not the company's. This has only been set up to get a current list. This is not the company creating the recall list because there are openings.

## Timeline/Misc-

- There aren't any updates on timelines for our plant.
- There will come a point in time that the plant will need to fill openings in the plant. They will combine all three lists by seniority (plant layoff, return to home and return to former labor market). Once this list has been combined and pulled for use of recall to the plant, this list will be the one they use until it is exhausted.
- Before they run the combined list, the company will set a date that you should have your name on the list if you want to be recalled. No dates have been set at this point. If you want to be considered for recall, make sure you get signed up. If you don't want to be considered for recall until after the first list is exhausted or later, you can wait to sign up.
- Recently, there has been some money approved for various projects within the plant. Most of the projects are assessing the machinery that we currently have to see what still works, what needs to be replaced and what needs to be updated.

\*\*\*For everyone that is tied to Belvidere, whether you transferred somewhere and plan on coming back or are here on layoff, please make sure your contact information is accurate with the company. You can verify your information on employee central (pictured below).

Keep in mind, the process to fill the plant (recall) will be dependent on contacting members by phone, email, text, letters, etc.... We need to make sure the contact information is accurate.

There will be deadlines for everything. Getting your name on the return to home or return to former labor market lists. Responding to job openings or department openings.

If you have any questions, please contact us.

Matt Frantzen, UAW Local 1268 President
