

## **Update from the Benefits Office for Blue Cross Blue Shield Members:**

Please be aware now that **UW Health** has taken over the **Swedish American Health System**, they have begun implementing **facility and clinic fees that are not covered under our BCBS policy**. The only situation our insurance will cover these facility fees is when it is a cancer diagnosis.

- Hospital owned facilities (provider-based clinics) charge the facility fee. The fee is in Illinois is \$323 and \$261 in Wisconsin.
- Non-hospital owned clinics (physician owned clinics) do not charge this fee.

Please see [www.uwhealth.org/billing](http://www.uwhealth.org/billing) for more information and current list of facilities that may charge a facility fee.
