Select One Option for Each Day:

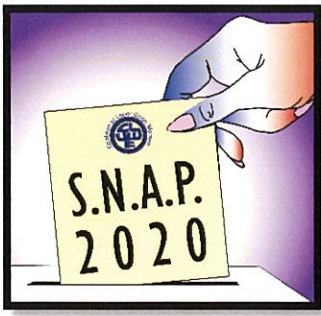

Friday, 3/13: The first 3 options listed are full day workshops running from 9:45 AM - 3:45 PM with an hour lunch break. The last option listed is 2 half-day workshops held back to back, one before lunch and one after.

- COURAGEOUS CONVERSATIONS:** This workshop will give the tools to have a constructive conversation with the co-workers or members you have been avoiding. Participants will be able to identify a current situation that involves conflict and practice addressing the issue through a courageous conversation.
- NONE OF US ARE FREE:** This workshop will address the implicit bias – the unconsciously held set of associations we all have. We will also examine and identify personal biases that contribute to internal and external oppression. Participants will be able to practice intervention techniques and conflict resolution.
- GET OUT THE VOTE - 100 YEARS AND COUNTING:** Before you start to create any "GOTV" program, make sure you know the laws about voting in your campaign's district and your fiduciary responsibility once a plan is in place. Participants will be able to design a basic game plan TO make sure your targeted voters get their votes cast. Remember -- everything you do in your campaign should lead up to and reinforce your GOTV strategy.
- HALF DAY WORKSHOPS REQUIRED FOR ALL STATE AND CHAPTER OFFICERS WHO DID NOT ATTEND IN THE PAST and OPEN TO ALL:**
 - FOLLOW THE MONEY/FINANCIAL RESPONSIBILITY:** Participants will examine current fiduciary responsibilities and improve current practices; review required reports; and create personal action plan based on knowledge gained in this workshop.
 - KNOWLEDGE IS POWER/KNOW YOUR CONSTITUTION:** Every member makes us stronger and the more you know about the basics of CLUW, the better! Participants will be able to analyze the constitution of National CLUW; assess local chapter bylaws; and create a plan that is congruent with National CLUW.

Saturday, 3/14: The first 3 options listed are full day workshops running from 9:45 AM - 3:45 PM with an hour lunch break. The last option listed is 2 half-day workshops held back to back, one before lunch and one after.

- PUT YOUR HOUSE IN ORDER/BUILDING FROM THE INSIDE OUT:** Regardless of whether you want to sign up more members, ramp up participation in meetings or increase the number of activists, start with an evaluation of your own internal strengths and weaknesses. Participants will develop a strategic plan to build stronger chapters and state CLUW.
- RUN FOR OFFICE, NOT FOR COFFEE:** The time is now; the place is here for you to run for office. This workshop will be in two parts. The first part will focus on the "do's and don'ts" of running for office in your local union or central labor council. The second part will focus on running for political office in your community. Participants will develop an action plan to explore the process of creating an effective campaign.
- CHANGE THE WORLD - ONE VOTE AT A TIME:** This workshop looks at political action as a tool for making change at the grassroots level. Participants will be able to examine tactics from organizing a letter-writing campaign to assembling tens of thousands of people in the state or national capital to protest government actions. Participants will be able to develop a process to organize communities to engage in political action - why and how to do it, when it is appropriate, and what it might accomplish.
- HALF DAY WORKSHOPS:**
 - THREATS TO FAIR ELECTIONS:** Elections are a central feature of democracy. For elections to express the will of the electorate, they must be 'free and fair.' This workshop will focus on the impact of gerrymandering and voter suppression impact on recent elections and what you can do about it.

TOWN HALL MEETINGS 101: This workshop will provide step-by-step instructions for convening and facilitating an informal public meeting around shared subjects of interest. Participants will be able to utilize town hall meetings as an important tool for informing communities about our issues, gauge where a community stands on certain subjects and serves as a place to identify and implement solutions to a problem.
